

Mr. Nikhil P. Kulkarni has been employed with National Institute of Miners' Health (NIMH) since 2002. He is currently working as a Senior Scientific Assistant in the Occupational Hygiene laboratory of the institute. He has done his post-graduation in Environmental Sciences from the Gujarat University, Ahmedabad as well a Diploma in Business Management from The ICFAI University. Prior to joining NIMH, he was associated with National Institute of Occupational Health (NIOH), Ahmedabad as a Project Fellow where he was involved in the various occupational hygiene projects of NIOH.

Currently at NIMH, Shri Kulkarni is involved in various occupational hygiene projects the institute undertakes at the various mines throughout India. He has participated in about 40 such dust, noise and vibration projects of the institute to-date. His other duties also involve qualitative and quantitative estimation of quartz in the collected dust samples using a Fourier Transform Infra Red (FTIR) Spectrophotometer. He has also published four research papers in peer-reviewed national (3) & international (1) journals and has contributed and published his work in an international conference (1).
